

## ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

B. F. Magoon of Stowe tarped 125 trees last week.

Charles Landon, 94 years old, is the oldest man in Middlebury. He was out Tuesday and voted.

One Orleans man has knit 30 pairs of service socks for the Red Cross this winter and another man is a close second in the race.

Henry A. Thomson, for seven years a mail carrier in Springfield, died March 5 after an illness with pulmonary abscesses. He was 47 years old.

Miss Lelia Flint of St. Albans has been engaged to succeed Miss Margaret Gilman as teacher of domestic science at Peoples academy in Morrisville.

Rev. Charles Wattie, formerly pastor of the Congregational church at Essex Junction, has accepted a call to the pastorate of the Congregational church at Hardwick.

T. C. Bacon, about 30 years old, who kept books for W. K. Bush in Benson, and J. May, 71, who lived in the same place, were found dead in their beds March 4.

The condition of Frank A. Fairbanks, who was seriously hurt last week when he fell from a load of hay in Springfield, is unchanged. There is little chance for his recovery.

C. F. Randall, proprietor of the Hotel Randall in Morrisville, is said to have paid \$712 for wood alone for heating from Dec. 17 to Feb. 25, and besides that got a sled load or two of coal.

Miss Mildred Vincent, who graduated from the Rutland high school in 1912, has been appointed one of the tutors for the children of Joseph P. Tumulty, secretary to President Wilson.

Mrs. Margaret Drugg observed her 95th birthday anniversary March 1 at the home of her niece, Mrs. W. H. H. Falls, in Stowe. Although her health is rather feeble, Mrs. Drugg is about the house.

As Mrs. Willis Cady was alighting from a train at Northfield Falls a few nights ago, she tripped and fell to the foot of the bank at the rear of the station. She was badly shaken up, but not otherwise injured.

Charles C. Morse, one of the oldest members of the Masonic lodge in Morrisville, died in Pasadena, Cal., recently. He was a member of the lodge for over 40 years and formerly edited the Lamolite Newswriter in Hyde Park.

The teachers of Shaftsbury presented Supt. J. D. Whittier a silver loving cup engraved "Shaftsbury, 1918," upon his leaving the work in the schools. The teachers of the North Bennington graded school district presented him with a \$5 gold piece.

The new H. W. Putnam Memorial hospital in Bennington will be opened for the treatment of patients some time next week, it is expected. The surgeon-in-chief will be Dr. James P. Marsh of Troy, N. Y., and Dr. John Trotter of Troy will be assistant surgeon. The entire cost of the hospital and equipment, with grounds, will reach about \$200,000.

Charles H. Forbush, cashier of the First National bank of Springfield, died March 5 after a short illness with pneumonia. He entered the bank when a young man as a teller and in a few years was advanced to the position of cashier, which he held since. Mr. Forbush had bright disease and had been in poor health for more than a year. He was 42 years old.

George Y. Simpson, while returning from Hardwick to his home in Greensboro recently, met with an accident which might have proven fatal. As he turned out for a load of pulp wood, the horse went into a ditch and snowed, and after upsetting the sleigh, freed itself and ran. Mr. Simpson was thrown onto a rock, his head striking it and rendering him unconscious. He was badly bruised.

As a patriotic measure, appropriations were paid at the town meeting in Morrisville, and one of the ways suggested, although it was not decided, was that of discontinuing three courses at Peoples academy, that of agriculture, domestic science and the commercial course. The matter was left with the school board, the vote being taken to get the opinion of the voters.

Armand Bleau, aged 16, met almost instant death Wednesday at the woolen mills in Winooski, when he fell through two floors down the elevator shaft, striking on his head and fracturing his skull. He had worked at the mill only half a day. He intended to take the elevator, but someone started it and he failed to get on. Young Bleau was a cousin of Napoleon Bertrand, who met death at the mills Nov. 26, when he fell into one of the carding machines.

**BURLINGTON MAN PAROLED.**

**Moses Friedlander Out of Prison Because of Family's Condition.**

Burlington, March 8.—Moses Friedlander of this city, who was sentenced in city court on Feb. 4 of this year to serve not less than three and one-half nor more than six months in the house of correction at Rutland and who was taken to Rutland on Feb. 6, has been paroled by Governor Horace F. Graham.

The granting of the parole came about mainly, it is believed, through the offices of "Thomas" Magner, who circulated among the business men of the city, a petition in Friedlander's behalf, and who, incidentally aided the wife and children of Friedlander in various ways.

The petition was signed by several officials and business men of the city and was forwarded to Governor Graham with the result that Friedlander has been paroled.

The parole was granted because of the condition of Friedlander's family. He has a wife and 13 children, one child born since the sentence was imposed. In the petition to the governor it was stated that the poor department of the city was allowing for the support of this family, one-half ton of coal a month and four dollars a week in groceries.

**Disaster Minus Insurance** means more disaster. Disaster plus insurance means no disaster. This is the multiplying of fractions, the more you multiply the less there is. National Life Ins. Co. of Vt. (Mutual). S. S. Ballard, general agent, Rialto building, Montpelier, Vt.

## BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE

"Cascarets" Regulate Women, Men and Children Without Injury

Take When Bileless, Headachy, or Cold, Bad Breath, Sour Stomach

Instead of nasty, harsh pills, salts, castor oil or dangerous calomel, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without gripping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation, or bad cold disappears. Mothers should give cross, sick, feverish or bilious children a whole Cascaret any time—they are harmless and safe for the little folks.—Adv.

## NO FARM LABOR RELIEF FROM ENLISTED MEN

Gov. Graham Got No Satisfactory Reply When He Appealed to President Wilson for Help During Sugaring.

Sometime ago, Governor Graham wrote the secretary of war asking brief furloughs from Camp Devens for Vermonters experienced in sugar-making. The assistant general of the army replied Feb. 10 that there is no authority for granting furloughs for such purpose. The governor then sent a letter to the president, to which a reply has been received from the assistant general. Copies of these letters are quoted below, in order that farmers may have all the information available at present on this subject.

"Montpelier, February 21, 1918.

"President Woodrow Wilson, Washington, D. C.

"Dear Mr. President: On Feb. 13 I addressed a letter to the secretary of war, a copy of which is enclosed herewith, and on Feb. 16, the assistant general replied; copy of his reply is also enclosed.

"You will note that the assistant general in his reply says, 'there is no authority for granting furloughs for the purpose stated.' It does not seem to me that furloughs, if granted, must be granted for the purpose referred to in my letter of Feb. 13 to Secretary Baker, but that experienced men might be granted leave generally to allow them to come back here and engage in the conduct of the maple sugar industry.

"You have a much clearer idea of labor conditions in the country at large than I have, but Vermont farm labor conditions are acute. Relief ought to be given.

"Folk who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous, stagnant matter.

"Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of red hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast.

"The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have yellow skins, blood disorders and sickly complexion are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of indigestion before breakfast.—Adv.

## Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folk who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous, stagnant matter.

afforded at once, either through the power vested in you as commander-in-chief, or by proper legislation. I am advised that certain legislation looking toward this end is pending. The situation as I see it is that if the farmers could be advised either yes or no, very soon, they would then know how extensively they could plan for the coming season's work, which is upon us now. If brief furloughs can be granted, may not this be done at once, so that the farmers may receive immediate benefit and food production be stimulated by its psychological effect in increasing the acreage under the plow? To my mind the subject of farm labor ought to receive immediate attention and the farmers should be advised authoritatively just what they may expect in the way of relief.

"Very respectfully yours,  
"Horace F. Graham, Governor."  
"Washington, February 28, 1918."

"Honorable Horace F. Graham, Governor of Vermont, Montpelier, Vt.

"Dear Sir: With reference to your letter of Feb. 21, 1918, to the president regarding the matter of furloughs for the farmers of Vermont, I beg leave to advise you that at the present time there is no authority for either discharging or furloughing enlisted men for the purpose of attending to the labor necessary in the production of crops. It is believed that this is a subject of legislation now before Congress and what the outcome of said legislation will be, it is impossible to say.

"I regret that I am unable to give you more favorable or definite information regarding the future policy in this matter. Very respectfully, (Signed)  
"H. P. McCain, the Adjutant General."

**VERMONT FIRE INSURANCE CO.**  
Did Business of \$702,002.22 During Past Year.

**Children Like To Take It**

Thousands of children have worms and their parents don't know what the trouble is. Symptoms of worms are: Dandruff, stomach, swollen upper lip, sour stomach, offensive breath, hard farts, foul breath, nervousness, irritability and pain about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red spots sticking out on tongue, starting during sleep, loss of sleep. Always keep Dr. J. F. True's Elixir on hand for such cases. It is promptly effective, and the nice thing about it is that children like to take it.

Mrs. H. W. Roberts of 502 Asylum street, Flint, Michigan, wrote to us: "I have used the Elixir and I know my little girl is cured of worms." She wrote in again later, saying: "Baby is fine, and I think it was your medicine that helped her."

Dr. J. F. True's Elixir has been on the market more than 60 years, and more and more people are using it at all times to expel worms, or to tone up the stomach and restore natural action of the bowels. Children like to take it.

**Stop Corn Agency in Four Seconds**

Use "Get-It"—See Corns Peel Off!

The relief that "Get-It" gives from corns—the way it makes corns and calluses peel off painlessly in one piece—is one of the wonders of the world. The woman in the home, the shopper, the dancer, the foot traveler, the man in the office, the clerk in the store, the worker in the shop, have to-day, in this great discovery, "Get-It," the one sure, quick relief from all corn and callous pain—the one sure, painless remover that makes corns come off as easily as you would peel a banana. It takes 2 seconds to apply "Get-It"; it dries at once. Then walk with painless joy, even with tight shoes. You know your corn will loosen from your toes—peel it off with your fingers. Try it, corn sufferers, and you'll smile.

"Get-It" is sold by all druggists (you need pay no more than 25 cents a bottle) or will be sent on receipt of price by E. Lawrence & Co., Chicago, Ill.
